SUPERIOR QUALITY
OF **GRAIN**

4TH GENERATIONS INTO THE GRAIN BUSINESS

An esteemed manufacturer, exporter and supplier of rice since 3 generations and developing as merchant importer with stepping up of 4th generation. Shriram Food Industry Limited is a much sought-after name in the grain market for its superior quality, exotic variety, excellent packaging, and cost-effectiveness. We are a part of diversified Greta Group, present in the food processing, as well as commodity, minerals & scrap metal trading industries.

PRODUCTION SETUP

Being located in the centre of country sources with close proximity to Mumbai & Vishakhapatnam ports, we as an Agri traders has a dual location advantage. This not only results in the reduction of the price of the end product but also makes way for speedy import and export shipments.

- We have a production setup at Nagpur in Central India with a milling capacity of 1000+ MT per day and warehousing capacity of more than 2.5 Lakh MT.
- Our infra structural facilities managed by a professional team have enabled us to attain a monthly business more than 60,000 MT.
- We have the latest machinery from Buhler (Germany) and fully equipped laboratory for in process quality control and checks.

GREEN INITIATIVE SOLAR POWER

Shriram Food has undertaken green initiatives to make its structures and functioning more environment friendly and energy-efficient.

VISION & MISSION

Our vision focuses on capturing the world market with trust, commitment, and quality. Customer satisfaction is the core of all our endeavours. We strive for building a strong business relationship with our clients by offering the premium quality of grains at the most reasonable price.

MANAGEMENT & TEAM

We manage all our endeavours under the guidance of our promoters who have decades of experience in the trading and manufacturing of grains. It is because of this rich leadership that we have become one of the major world rice exporters & now the next generation of the family stepped up to lead the organization into the import business. Infusing fresh ideas and energy into our purchases, marketing and packaging strategies for Import vertical with introducing commodities like Maize, Soyabean & Lentils.

- **Professionals**
A team of skilled manpower, well-versed in all aspects of the product.
- **Quality Testing Officers**
Responsible for strictly scrutinizing the quality of the products by various quality testing parameters.
- **Supplying Teams**
Take special care for safely delivering the products to the clients with best logistics and packaging.

PACKAGING & TRANSPORTATION

We pay emphasis on packaging to ensure the safety of grains during transit. Besides, packing is also arranged as per the requirements of the buyer. In the last few years, we have been successfully managing the concept of **Private Label Manufacturing** with continuous Imports and Exports as per our clients need.

Experience cost-effectiveness, reduced time to market and a distinct brand identity.
